**Respondus Monitor** integrates webcam technology with LockDown Browser, creating an essential layer of security for non-proctored assessments and an added measure for student identity verification.

- Students use their own computer and webcam
- Student and the surrounding environment are recorded during the exam
- Instructors can quickly review details of the tests and the recorded videos

**To access Respondus Monitor** in Blackboard Learn:

- Go to your course **Control Panel**
- Click **Course Tools**
- Select **Respondus LockDown Browser**

**To learn more about Respondus Monitor**, participate in the upcoming Instructor Training for LockDown Browser & Respondus Monitor (45-minute webinar):

- Tuesday, February 11th at 1 pm ET
- Thursday, February 20th at 2 pm ET
- Friday, February 28th at 12 pm ET
